

Decision Intelligence Playbook

Signal rules, root-cause logic, owner actions and prioritized business initiatives.

signal	current_reading	health	threshold_or_rule	what_it_means	owner	recommended_decision
Revenue momentum	R3,994,247,413	Healthy scale	If monthly movement exceeds +/-12%, explain by c2025012, drove 1.26% vs 3-month signal	2025012, drove 1.26% vs 3-month signal	BI Ops	Trigger exception commentary in the monthly trading pack.
Margin quality	48.5%	Strong but must be protected	If margin rate falls below 45%, inspect discounting, COGS and channel mix	COGS and channel mix	COO / Merchandising	Protect margin-positive product mix and bundle high-margin items
Return leakage	4.9%	Watchlist	If return rate exceeds 5%, prioritize category root-cause	Root-cause	COO / CX	Improve sizing, delivery promise, PDP content and post-purchase
Hero category concentration	Apparel R1,759,430,045	Strategic dependency	If one category exceeds 35% share, manage stock and campaign length	Apparel campaign length	CEO / Supply	Create availability alerts and category-specific SEO/story pages
Channel efficiency	Direct 100.0x ROAS	Scale carefully	Scale only when ROAS, margin and conversion all hit	ROAS, margin and conversion all hit	CMO	Move spend toward efficient journeys; keep paid experiments controlled
Data completeness	2,000,000 rows	Audit-ready	If row counts differ from expected load by >1%, block new code	Block new code	Data Governance	Publish source, target, row count and commit ID in every close
Cloud cost	Fabric F2 paused	Controlled	If no active demo or refresh, capacity must be paused	Capacity was paused after handover to protect remote	AI Platform Owner	Resume only for refresh/demo, then pause again.

Prioritized Initiatives

initiative	hypothesis	evidence	estimated_value	confidence	effort	priority_score	owner	next_step
Return leakage reduction sprint	Footwear returns can be reduced with fit guidance, PDP content and post-purchase offers	Footwear is the highest-risk category for returns	R16,750,042	Medium	Medium	92	COO / CX	Create return-reason taxonomy and product fit guidance
Hero category availability and SEO program	Apparel deserves protected stock, SEO hubs and executive approval	Apparel contributes R1,759,430,045 modeled revenue.	R12,808,359	High	Medium	90	CEO / Ecommerce	Build category scorecard with stockout, rank and SEO
Margin-positive bundle testing	Bundling Jacket ADV FlowTour 5.5 - Women with accessories	ACS and gross margin with the cheapest basket-quality merchandise	R1,634,973	Medium	Low	88	Merchandising / CMO	Run A/B test: product page bundle versus no bundle
Channel budget guardrails	Direct is efficient, but paid budget should expand only through observed ROAS	Observed ROAS signal is 100.0x.	R7,753,989	Medium	Low	84	CMO	Set campaign guardrails: minimum ROAS, capped budget
SAP close reconciliation automation	Order/refund/VAT/payment exceptions can be reduced by automated SAP E2E Wap reconciliation	Business SAP E2E Wap reconciliation facts to accounting is manual and error-prone	R1,600,000	High	Medium	82	CFO / BI Lead	Schedule monthly exception pack with owner

Root-Cause Playbook

problem	diagnostic_branch	question_to_ask	data_needed	likely_interpretation
Revenue down	Category demand	Which categories moved versus 3-month average?	MonthlyTrend + CategoryKPI	Campaign issue, product availability, seasonality or assortment gap.
Revenue down	Channel mix	Did traffic/revenue shift away from efficient channels?	ChannelROI	Media allocation, SEO ranking or landing-page relevance issue.
Margin down	Discounting	Did discount depth increase by category/channel?	Fact transactions + ProductKPI	Promo overuse or weak pricing control.
Margin down	Returns	Are returns rising in a specific category/product?	MLReturnRisk + Accounting Pack	Sizing, content, fulfillment or quality leakage.
Returns up	Product fit	Are high-risk items clustered by category, size or product line?	MLSizeRes + ProductKPI	Improve size guide, PDP detail and customer education.
Returns up	Fulfillment	Are return rates linked to fulfillment days or province?	Fact transactions + ProvinceKPI	Delivery promise or regional service gap.
ROAS down	Traffic quality	Is revenue falling while spend remains high?	MarketingROI	Creative fatigue, wrong audience, poor landing page.
Audit exception	Data lineage	Do source/target row counts reconcile?	Source Register + Fabric Proof	Duplicate, missing or stale pipeline load.
